

Simple sophistication - The PEGAS™ Range.

...created to make a lasting impression.

Controlling people access to create a safer environment.

Turnstile Solutions
from the very best

The PEGAS Range – Created to make a lasting impression. Attractive and sophisticated design for access control systems and turnstiles.

• Suitable accessory for EASYGATE™, BAR and ROUND Turnstiles.

- Quality manufacture insures long life and trouble free use.
- Designed to suit all office applications and environments.

PEGAS GL | PEGAS GLE with fail safe electric motor

- Adjustable opening from 0-270° with individual opening angles possible in each direction and automatic closing (GLE = 0-90°)
- Opening times can be defined or the gate can be left open until the next control impulse is received
- Opening width up to 1000mm
- For wider openings install two PEGAS units, electronically controlled to ensure synchronised opening and closing
- Gates can be locked into position

PEGAS SF with fail safe electric motor

- Ideally suited for fast and safe people movement
- Delivers improved wheel chair and handicapped access – DDA compliant
- Adjustable opening from 0-270° with individual opening angles possible in each direction and automatic closing
- Opening times can be defined or the gate can be left open until the next access control impulse is received
- Opening width up to 1000mm. For wider openings two PEGAS units can be electronically controlled to ensure synchronised opening and closing
- Gates can be locked into position (suitable for outdoor environments)

PEGAS J with fail safe electric motor

- Uniquely designed for gate wings
- Robust and resistant metal structure (suitable for outdoor environments)
- Installed separately or together with turnstiles
- Adjustable opening from 0-270° with individual opening angles possible in each direction and automatic closing
- Gate opening times can be defined, left open or until an electronic signal is received
- Gates can be locked into position
