

# THE **BIKE GUARDIAN**

The **NEW** Smart Solution  
for Bike Parking

**MEESONS**  
SAFE SECURE ACCESS

# Why choose the Bike Guardian?

- **Prevents bike theft**

The **Bike Guardian** knows which user is linked to which bike and will only allow you to leave with your own bike.

- **24/7 Secure unmanned access**

The **Bike Guardian** entrance allows access to authorised users only.

- **Only one bike per transit**

The **Bike Guardian's** internal sensors verify only one bike is present before permitting access through the Bike Guardian.

## FEATURES

- Patented Bike Guardian Portal & Tag system
- Prevents tailgating with or without a bike – optional
- Integrates with existing access control
- Suitable for Internal & External bike parking facilities
- Intuitive user friendly operation
- Easy to retro-fit

# MEESONS

SAFE SECURE ACCESS

## The Bike Guardian Portal

- 24/7 unmanned secure entrance to a bike parking facility
- Two-door system – only one door is open at any one time
- Internal sensors verify:
  - the user and bike are linked together
  - only one bike is present
  - only one person is present (optional).

## The Bike Guardian Tag

- One-time activation once attached to the bike
- User bike tag linked to user access card
- Deactivated once removed or sabotaged.
